Professional Summary

Software Developer with hands-on experience in frontend and fullstack web development. Skilled in frontend technologies as React, Next.js, Astro.js. Experience building real-world applications with authentication, dashboards, REST APIs, and database integration. Strong interest in clean code, scalable architecture, and continuous learning.

Technical Skills

Frontend: HTML5, CSS3, JavaScript, TypeScript, React, Next.js, Astro.js, TailwindCSS, Bootstrap, Vite
Backend: Node.js, Express.js, REST APIs, JWT Authentication, C#, Python, .NET
Databases: PostgreSQL, MySQL, MongoDB, SQL Server
Tools: Git, GitHub, Postman, Figma, VS Code, Android Studio, Docker Mobile: Flutter, Dart, React Native

Work Experience

Fullstack Web Developer
Mayan Life Real Estate April 2025 – August 2025

- Co-engineered a fullstack real estate platform using Next.js, Node.js, Express, and PostgreSQL under Agile/Scrum methodologies.
- Designed a modular, component-based frontend architecture to accelerate feature delivery and enhance UI reusability.
- Implemented secure role-based JWT authentication and built internal agent dashboards featuring advanced property filters and image upload functionality.

Featured Technical Projects

Keidot AI Assistant - Fullstack RAG Chatbot | Next.js, Node.js, LangChain, ChromaDB

- Engineered a production-ready hybrid RAG architecture using LangChain, ChromaDB, and Llama 3.2, featuring a permissioned agentic tool-calling layer to execute real business operations like scheduling and quoting.
- Developed a real-time streaming UI using Server-Sent Events (SSE), React 19, Auth.js, and Framer Motion for smooth markdown rendering.
- Secured the system via Zod schemas, JWT-bound identity checks against BOLA attacks, reCAPTCHA v3, and semantic guardrails preventing prompt injection.
- Deployed containerized backend services via Docker on Vercel to ensure reproducible environment parity.

Tasker Studio - Web Application | Next.js, Tailwind, TypeScript

- Built a comprehensive task management platform with Next.js App Router, securing administrator and student workflows with custom JWT role-based access.
- Integrated a serverless PostgreSQL database via Neon.tech, managing data models natively with Prisma ORM.
- Engineered an Optimistic UI utilizing Framer Motion animations and Sileo for dynamic toast notifications, alongside automated Resend API email services.

Education

B.S. in Software Development and Management Engineering Universidad Tecnológica Metropolitana 2025 - 2026
Associate Degree in Information and Communication Technologies 2023 - 2025
Professional Technical High School Degree in Computer Science CONALEP Mérida I 2020 - 2023

Languages

Spanish: Native
English: B2 – Cambridge, 2025
